

## THE KALAMAZOO FLYING SAUCER CLUB BULLETIN NO. 1

There is no charge for this bulletin and it is solely supported by voluntary contributions and labor and is sent for the purpose of notification of the next meeting of the group and for bringing you other notes of new developments which you may wish to use for reference.

In this, our first issue, let us state briefly that we in our serious approach to the question of Unidentified Flying Objects demands, first of all, that we face a fundamental change in concept as regards to the world of our environment. We must loosen our thinking, let our imagination fly with the winds, and above all must want to think!

No human being with a closed mind need read further, for he will be asked to think as he has never thought before, to admit to possibilities which shake the very foundations of his being.

We have no orthodox rigid formal organization. It is unique in that we have no membership, nothing to sign, no dues, no property. We meet for the pure enjoyment of the subject we are interested in with as little business as is necessary. Our library is individually owned with direct exchange made between the owners of books or periodicals. Any necessary expenses are met by voluntary contributions, each to his own dictates and ability.

---

### NEXT MEETING

THURSDAY, MARCH 15, 1956- 8:00 P.M. YMCA

The main portion of the meeting will be the presentation of a tape recording of some well known lecturer or of a person who has made contact with persons of another planet. To obtain the full benefit of this recording be sure to arrive in time to hear the beginning. Bring your friends if they are open minded and wish to study flying saucers and all their implications.

\*\*\*\*\*

On the current market is Captain Edward Ruppelt's new book, "The Report on Unidentified Flying Objects, published by Doubleday & Co. Ruppelt, now a research engineer for Northrop Aircraft, was formerly chief of Project Blue Book set up by the Air Force investigation of saucer reports.

Coming soon is a book with a new slant by Gray Barker, of Clarksburg, W.Va., publisher of the Saucerian. The Publication date is tentatively set for April 20 and the title is "They Knew Too Much About Flying Saucers."

Also scheduled soon is the "UFO Annual" by M.K. Jussup, publisher, Citadel Press. Jussup is the author of "The Case for the UFO", a recent best-seller. (From Orbit, Feb. 3, 1956)
